

Collaborative Teams - Coral Banks Construction Company

In today's world, where remote teams are the norm, and large projects require cross-functional teams to work together effectively and share resources to complete projects, collaboration is the fundamental skill that holds everything together. In Eagle's Flight's engaging experiential learning program, *Coral Banks Construction Company*[™], participants will be challenged to work together as a team, and a team of teams, to complete what appears to be an impossible task. Paralysis by the task at hand is quickly replaced with motivated, purposeful action as participants explore the potential for "what's possible" with the power of collaborative teams. This hands-on experience bridges the gap between intention (no matter how vast the objective) and execution, by addressing critical skills - leadership, communication, and resource management - that deliver cohesive teamwork and seemingly impossible results.

THE OUTCOME

Individuals will return to work with the ability, tools, and confidence to:

- Obtain a unanimous focus on a common, clearly defined goal
- Harness team spirit to achieve the goal
- Collaborate and productively share resources, assign tasks, and maintain quality standards
- Communicate effectively and frequently with team members
- Achieve the impossible by closely aligning individual and team goals with organizational objectives

delivery options
available

Post-course
reinforcement
available

THIS ISN'T YOUR ORDINARY LEARNING EXPERIENCE

An Eagle's Flight experiential learning program is unlike anything you or your participants have seen before – it's not another lecture, case study, or role-play. It's an immersive, learn-by-doing experience, where the learning is embedded in an engaging theme intentionally and apparently unrelated to participants' work environments. Why do we do this? It allows participants to simply be themselves in the experience, and act as they normally would at work. This is where true behavior change begins.

By personally experiencing the results that come from applying their existing behaviors, participants see the link between their performance in the experience and the changes they need to make to maximize performance at work. A powerful debrief reinforces the lessons learned in the experience and shows how to apply those lessons back on the job. New competencies are developed, learnings are retained, and individuals are more likely and better able to enthusiastically apply their new knowledge to improve their day-to-day performance.

"The use of your experiences to build understanding and conviction is an Eagle's Flight trademark; and one which, in my opinion, is a true differentiator that sets you apart from all others in your field."

Marc Caira, Vice Chair, Restaurant Brands International
