

The Seven Cornerstones of Teamwork

Instead of wasting resources assembling inconsistently performing groups who generate subpar results, organizations need to focus on building high-performing, functional, and goal-directed teams. While it may seem elusive, the product of focusing on building high-performing teams is a group of individuals who always deliver what they promise, achieve higher than expected results, and are fully engaged with the work at hand.

In Eagle's Flight's experiential learning program, *The Seven Cornerstones of Teamwork™*, participants will acquire a simple, yet sophisticated, multipurpose diagnostic and team-building tool that serves as a catalyst for generating outstanding results. Whether you're building a team from the ground up or developing an existing work unit, this results-directed process embraces the uniqueness of any team, while uniting them in the pursuit of common goals.

THE OUTCOME

Individuals will return to work with the ability, tools, and confidence to:

- Identify and apply the qualities that define a high-performance team
- Maximize team results by optimizing the performance of subgroups and individuals
- Generate greater unity, resource sharing, and focus on objectives and their outcomes
- Facilitate conversations and communicate with greater clarity and purpose
- Apply a common language
- Diagnose, adjust, and course-correct to propel a team's ongoing success

THIS ISN'T YOUR ORDINARY LEARNING EXPERIENCE

An Eagle's Flight experiential learning program is unlike anything you or your participants have seen before – it's not another lecture, case study, or role-play. It's an immersive, learn-by-doing experience, where the learning is embedded in an engaging activity. Why do we do this? It allows participants to simply be themselves in the experience, and act as they normally would at work. This is where true behavior change begins.

By personally experiencing the results that come from applying their existing behaviors, participants see the link between their performance in the experience and the changes they need to make to maximize performance at work. A powerful debrief reinforces the lessons learned in the experience and shows how to apply those lessons back on the job. New competencies are developed, learnings are retained, and individuals are more likely and better able to enthusiastically apply their new knowledge to improve their day-to-day performance.

"The use of your experiences to build understanding and conviction is an Eagle's Flight trademark; and one which, in my opinion, is a true differentiator that sets you apart from all others in your field."
